StellA

LIGHT, ROBUST AND FOLDABLE.

The STELLA walking frame is ultra-light and equipped with very useful every-day accessories: 4 large stable wheels, reinforced seat, adjustable handles and back-support, removable bag, cane-holder, cup-holder. Thanks to its robust 'cross' structure it easily folds and unfolds for storing or transport in the boot of a vehicule.
It's an indoor product but equally adapted to outdoor use on smooth surfaces.
Designed for people who have difficulty walking or struggle to be comfortable standing up, the STELLA walker increases freedom, mobility and autonomy in complete safety.
Comes in 4 sizes and 3 colours (red, blue and black)

Easily folds and unfolds for storing or transport in the boot of a vehicule.
