

THE DUAL-FUNCTION ROLLATOR

The new STELLA rollator equipped with footrests is a 2-in-1 walking aid convertible into a transfer chair. It is equipped with very useful accessories for everyday life: 4 large stable wheels, reinforced seat, backrest support and adjustable handles, removable bag, cane holder and cup holder.

Thanks to its sturdy cross structure, it folds and unfolds easily for storage or storage in the trunk of a vehicle. It is an indoor product also suitable for outdoor travel on smooth floors.

Intended for people who have difficulty walking and maintaining a comfortable standing position, the STELLA rollator allows greater freedom, mobility and autonomy, in complete safety.

Available in 4 sizes and 3 colors (black, red and blue).

› Robust

High quality aluminum composition.

› Braking assistance

Rapid triggering braking system for increased safety.

› Cross wheels (optional)

4 Cross wheels for easier outdoor travel.

› Practical

Easily folds and unfolds for storing or transport in the boot of a vehicle.
