

THE TOP OF THE RANGE FOR ACTIVE PEOPLE COMPLETE WITH STANDING MODULE*.

The Alltrack M series is an electric wheelchair with median traction which allows the user to easily bypass everyday obstacles while offering unparalleled stability and top-of-the-range comfort.

For even more comfort, the ASCENT version is equipped with a verticalizer module for an upright position, fluidly and safely. Thanks to the upright position, the user improves their face to face exchanges, and also improves health: better blood circulation, skin and pressure management, an improvement of posture, digestion, respiration, intestinal activity...

*The option of this feature should only be prescribed by a healthcare professional. Learning to use the standing position should be accompanied by a qualified therapist.

› High end comfort

Median tension configuration and 6-wheel interactive suspension of wheels and seat for more stability, mobility and comfort.

› Standing module

Programmed electronic module to switch from seated to upright position fluidly and safely.

› Ebox technology

Mastery of intelligent cylinders and programming of the wheelchair.

› Safety

Chest belt, pelvic belt and knee supports for maximum support.

› Technical characteristics

Accessibility	inside and outside
Configuration	2 central drive wheels and verticalizer module
General dimensions	length: 890 mm without leg rest
	width: 645 mm
Floor-to-seat height (without lifting seat)	from 425 to 450 mm
Floor-to-seat height (with seat lift)	from 470 to 495 mm
Seat width	from 380 to 610 mm
Seat depth	from 380 to 560 mm
Armrest height	from 280mm to 355mm
Backrest height	from 405 to 710 mm
Battery weight	2x24.5kg (70Ah)
Chair weight	approximately 180 kg depending on options
Maximum user weight	113kg
Speed	10km/h
Braking distance	55cm
Turning radius	51cm
Static stability while seated	9°
Dynamic stability while seated	6° (standing position prohibited on a slope)
Ability to slope while seated	6° (standing position prohibited on a slope)
Maximum slope when seated	6° (standing position prohibited on a slope)
Crossing obstacles in a seated position	7cm (standing position prohibited when crossing)
Autonomy	25km (70Ah)
Engines	350W x 2
Gel Batteries	70Ah x 2
Electronic	R-Net
Seated electric rocker	50°
Electric seat elevation (option)	28cm
Electric backrest recline	from 90° to 160°
Electric legrest rocker	60°, 70° and 80°
Battery charging	by joystick
Front wheels	150 or 205 mm
Rear wheels	150mm
Driving wheels	320 or 355mm
Pendant lights	GC3 double action 6 wheels and seat
Assisted driving	Smart Track
Special orders	Switch-it, Stealth, ASL, MO-VIS
