BACK OF THE CUSHION

► STEPS TO FILL IN THE TABLE

(RED BOXES INDICATE DEFAULT VALVE ROW LOCATION UNLESS OTHERWISE STATED)

Step 1: Specify cushion size (Width x Depth)

W: x D:

Step 2: Specify cell height H :

Pour les hauteurs différentes, inscrire 6, 8 ou 10 pour la hauteur des cellules dans chaque carré.

Step 3: Choose number of valves

1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 ☐

Step 4: To indicate the location of each valve, add a "V" in the desired corner box

Step 5: If more than one valve was entered in Step 3, ensure that each compartment is clearly identified by boundary lines, as indicated in the previous section regarding the compartment division procedure.

Step 6: When cells are not required:

a) Indicate "X" where a cell is not required but the base must be kept

b) Indicate "#" where neither a cell nor base is required

Step 7: Check required cover type:

☐ Standard ☐ 3D Mesh ☐ Incontinence

► REFERENCE GUIDE

Cell height: 6 8 10

Cells not required / base retained: x

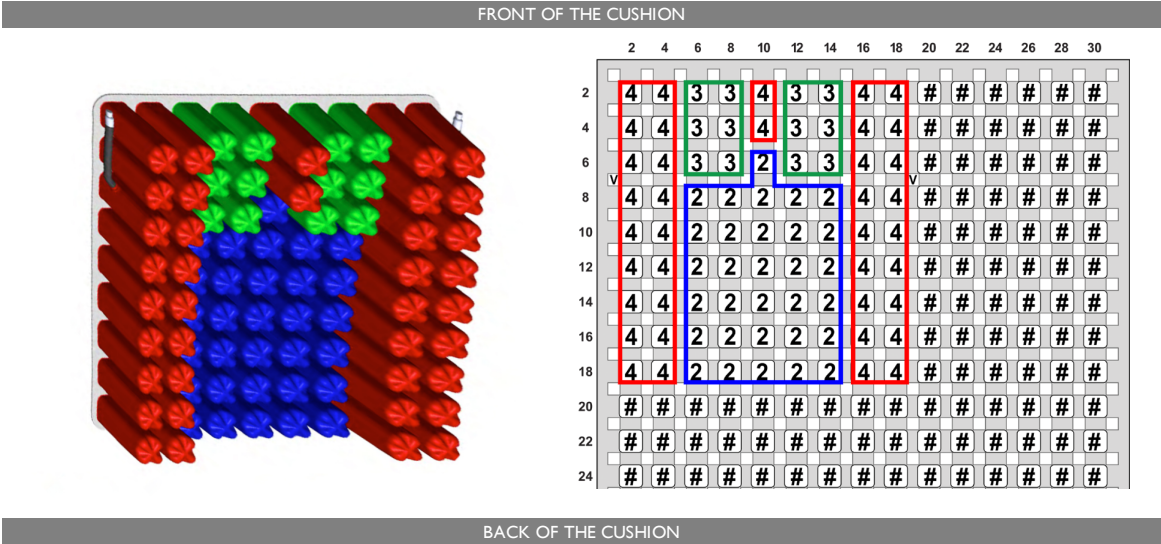

No cells / no base: #

Valve(s) and valve extension(s)

- Mark a “V” in the corner box(es) for the desired location of the valve(s).
- Ensure the number of compartments matches the number of valves indicated in step 3 on the next page.
- For more than one valve in the same corner, mark “VV” in that corner’s box.

Note: For any valve required at a location other than a corner, specify the location in the special instructions section.

► EXAMPLE

The colors serve as examples to illustrate the possible cell heights.  
(blue = 6 cm, green = 8 cm, red = 10 cm)

The CG Air DELUXE can be custom-made to meet the user's specific needs,  
using a combination of 6 cm, 8 cm, and/or 10 cm cells.

Use this form to place an order.
